

## Summer Camp

Lewis & Clark's outdoor Summer Day Camp on our 5 acre country escape encourages children's imaginations in this rich natural setting. Our day camp invites a passion for creating experiences that unlock curiosity and understanding about the environment and the world through exploration and discovery.

During the week we will learn about:

- Animals
- Pond life
- Plants and flowers
- Insects and spiders
- Fruit and vegetables

Creative art and outdoor play are highlights each day as we learn about the world around us. Children will enjoy our playground, boat rides around the pond, and field games!

Please send your child with adventure shoes, a water bottle, and a lunch. Snacks will be provided each day.
